

De Montfort University Kazakhstan (DMUK) First British University Campus in Kazakhstan

A globally recognized institution offering a diverse range of courses. With over 1,000+ active students and 350+ courses, DMUK sought an advanced ERP solution to enhance academic and administrative efficiency across multiple departments.

Challenges vs. Solutions by Academia

Challenges

Solutions by Academia

 Inconsistent processes across departments, leading to inefficiencies and communication gaps	 Standardized, streamlined, and integrated processes across departments
 Difficulty in managing financial transactions in multiple currencies	 Multicurrency support enabling smooth financial operations
 Requirement for a highly configurable ERP/SIS solution	 Fully configurable modules customized to institutional requirements
 Manual handling of student inquiries and admission processes	 Automated Enquiry and Pre-Admission Management System
 Lack of a structured approach to program and course management	 Centralized Program and Course Management for structured curriculum delivery
 Challenges in tracking and managing student attendance	 QR Code-based Attendance System for real-time, digital tracking
 Complicated and manual fee collection process	 Integrated Fee Management Module with Online Payment System
 Manual and time-consuming examination management	 Comprehensive Examination Module with legacy data migration & automation of pre-exam, exam day, and post-exam processes
 Inefficient tracking of student placement and completion records	 Dedicated Placement and Completion Management Module

Benefits

Process Alignment – Academia brought structure and standardization across departments & their processes

Multicurrency Support – Simplified financial transactions in different currencies, catering to international students and collaborations

Configurability – The flexible nature of Academia allowed DMUK to tailor the system according to their unique operational needs

Seamless Implementation – A plug-and-play experience with minimal customization required

Comprehensive Academic Management –

End-to-end digitalization of academic and administrative workflows

Academia Impact

Enhanced Efficiency & Reduced Response Time – Improved administrative productivity with process automation

Real-time Data & Insights – Enabled leadership to make informed decisions quickly

Scalable ERP Platform – A future-ready solution that grows with institutional needs

About Academia

Academia by Serosoft is a leading education management solution, empowering institutions world-wide with a comprehensive suite of modules tailored for higher education. Its robust features, exceptional customer support, and scalability make it the preferred choice for institutions seeking digital transformation.

DMUK's successful implementation of Academia showcases how institutions can optimize operations and achieve seamless campus management. Ready to experience similar efficiency at your institution? [Request a Free Demo Today!](#)
