

“ We wanted to automate our administration processes especially in the area of attendance marking. The features offered by Academia fulfilled all our need, Biometric integration provided real-time attendance marking and simplified the other academic operations as well. Our overall efficiency increased remarkably with Academia implementation. ”

-Dr. V Senthil

Thiagarajar School of Management

Pressing Challenges

- Prolonged process to change marking range for an individual course.
- Multiple and complex processes for faculties to update attendance at various places.
- Followups for faculties to capture pending attendance.
- Manual process for attendance marking.

Academia Solutions

- Marking structure simplified with relative grading function.
- Attendance marking became easy with biometric integration.
- Pending attendance marking became accessible for faculties from employee portal.
- Real-time attendance capturing became possible.

Employee time saved annually for sending data to the government authorities.

Student & faculty time saved per semester for course enrollment.

Administrative time saved in academic operations.

Benefits

- User dependencies reduced heavily for marking attendance.
- Transparency among students, faculties, and admin staff increased, which brought better collaboration among them.
- Overall efficiency increased in academic processes.

Institute Profile

Thiagarajar School of Management (TSM) an institute that began with the aim to impart professional education to managers who had a burning desire to scale up their career potential with better managerial skills. The 56-year-old institute is located in the heart of Madurai city, in a lush green 17- acre campus with global standard infrastructure. TSM has a high ratio of full-time faculty to students, with most members of faculty holding Doctorates from prestigious institutions like IITs and IIMs who impart rich, global and deep insights with incisive analysis both in theory and practice to students. It has around 80 corporates visiting the campus for recruitment across disciplines. The institute works in the pace of challenges in the global environment giving a strong focus on building analytical and problem-solving approach.

About Academia

Academia empowers educational institutions of varied sizes and operations to focus on delivering high-quality education and not much thinking or worrying about the administrative process. It enables educational institutions to take care of their entire administrative tasks and assists in repetitive resource-intensive activities through seamless automation. The architecture of Academia is designed in such a way that it meets the unique and varying needs of schools, colleges & universities.
